Patients to be reported (Dicteren)

With this button you call the **Ondersteuning** to this side!

[Startpagina] [Zoekopdracht afspraak] [Status afspraak] [Beeld en verslaginzage] [Dicteren] ▇▇▇▇ [Ondersteuning] [Afmelden]

If you mark the checkbox on "Onderzoeksdate", "Categorie", "Artsgroep" or "Ruimtegroep", you will get the respective control element with which you can **set** an **individual filter** for the list.

EB telework > Dicteren

...datum ✓   Categorie ☐   Artsgroep ☐   Ruimtegroep ☐

If you have set the Filter, click on the "Search" button to **reload** the list.

Zoeken

Let a.u.b. op de datumfilter en klik dan op zoeken.[zoeken].
Om geen datumbeperking te hebben, klik het vinkje bij [onderzoeksdatum] weg.

...el 9 D...sätze vorhanden.

If you click on one of the **links** (except image) for the desired patient, you will be taken to the **patient page**, where you can find and dictate all important information about the patient.

7) Put recording position at the end
8) Activate / deactivate insert mode (afterwards click on start / stop recording again)
9) Upload temporarily
10) Actual upload (only possible after saving temporarily - check mark)

Flash installieren

Check if you have a the most recent version of Adobe Flash Player. If you don't, go to https://get.adobe.com/flashplayer/?loc=de and install the latest version.

Flash konfigurieren/zulassen

If Flash is installed, but you can not record anything yet, then check if a popup has appeared which could suppress Flash.

If not, right-click on the Flashplayer ➔ [Settings], tab "Access protection", click on [Allow] and set a check mark in the box next to" Save "and then click on [Close].
